# The 100UP Learners from the June 2024 YIPA/WCPDF Workshop

Close to 100 Grade 12 Learners from the UCT 100UP Programme attended the June 2024 YIPA/WCPDF Workshop, engaging with eight professionals from the Property Development & Construction Industry (including the Legal and Financial worlds) as these professionals spoke about their jobs and the career paths they followed. Just over 20 of these Learners will participate in a further Job Shadowing Programme to be held in September 2024, spending two days on site and in the offices of companies within the Built Environment.
